Web access

Concurrent work and roles linked to the organizational structure.

Decision support

The platform supports the analysis and visualization of information; the decision remains in management's hands.

THE STRATEGY MAP

Four perspectives. A single value-creation logic.

The causal relationships between objectives become visible, measurable and easy to communicate across the whole organization.

01 Beneficiaries

Public / customer value — results and experience. *Objective → KPI*

02 Internal processes

Operational excellence — effective and controlled processes. *Objective → KPI*

03 Learning & growth

Organizational capacity — competences, culture, technology. *Objective → KPI*

04 Financial

Use of resources — economy, efficiency, effectiveness. *Objective → KPI*

Objectives	Causal relationships	Indicators	Initiatives
what we want to achieve	how they connect	how we measure	what we do

STRATEGY EXECUTION

A continuous process, from the reference framework to learning and adaptation

The platform closes the management loop through measurement, analysis, testing of changes and review of objectives.

Planning

Direction and objectives.

Alignment

Cascading and responsibilities.

Control

Monitoring and intervention.

A COMMON WORKSPACE

Features for administrators, managers and teams

Role-based access supports collaboration, separation of responsibilities and operational traceability.

01 Strategic objectives

Definition, cascading, weighting and tracking.

02 Indicators & scorecard

Targets, values, trends and alert thresholds.

03 Risks & controls

Identification, assessment, treatment and monitoring.

04 Responsibilities

Clear roles, owners, approvals and deadlines.

05 Meetings & documents

Agendas, decisions, minutes and archiving.

06 Search & reporting

Related information and multi-criteria extractions.

100% traceability

Creation and modification date · author · documents · workflows · decisions.

CONNECTED GOVERNANCE

Three disciplines working together

Compliance, strategy and risk become a coherent management system, not separate initiatives.

SCIM — internal control

OSGG 600/2018 — internal managerial control.

BSC — strategy

Balanced Scorecard — strategy execution and alignment.

GRC — risk & compliance

Risk management — risk linked to objectives.

Objectives, indicators, risks and control measures use the same language and the same source of truth — for integrated decision-making.

DATA ORGANIZED FOR DECISIONS

From registration to reporting, with complete control over information

A centralized relational database and integration through standard methods support a secure, extensible and verifiable platform.

Dashboard — statements and reports

Multi-criteria extraction.

Monitoring

Trends and exceptions.

Traceability

Complete, auditable history.

Link-based search

The search engine leads directly to the related information managed in the platform.

ORGANIZATIONAL IMPACT

Better control. Clearer performance.

01	Objectives achieved economically, efficiently and effectively.
02	Resources managed based on priorities.
03	Internal and external rules complied with.
04	Measurable organizational performance.
05	Complete traceability of management activities.
